SUIT TO DISSOLVE
THE SUGAR TRUST

Department of Justice Has
Gathered All Data.

With all the necessary papers in hand the Department of Justice is ready to bring action for dissolution against the American Sugar Refining Company. The department has been gathering information for the suit ever since the underweight scandal in New York several months ago.

The suit for dissolution is to be identical with those against the Standard Oil and American Tobacco companies, except that the sugar suit will be more sweeping than the others. The government, it is said, has information which will show the big trust as a red-headed violator of the Sherman anti-trust law. Attorney General Wickham has personal charge of the action and has been working on the case for some months. The sugar concern has been charged with practically controlling the sugar beet industry of this country. The gist of the government's charge will be that the trust has regulated the price of sugar and is doing so now.

NEW ORLEANS GROWING.

Pelican City Brings Population Up to 329,075 in 1910.

According to figures issued by the Census Bureau yesterday the population of New Orleans in 1910 is 329,075, as compared with 297,194 in 1900. This is a gain of 10.1 per cent.

The population of three cities in Massachusetts is given as follows:
Lowell, 1910, 106,294; 1900, 94,969. Pittsfield, 1910, 32,121; 1900, 21,766. Holyoke, 1910, 57,730; 1900, 35,712.

TARGET PRACTICE STOPPED.

Schroeder Reports Heavy Sea Running Off Cape Henry, Va.

Rear Admiral Scammon, commander-in-chief of the Atlantic battle fleet, advised the Navy Department yesterday that a heavy sea is still running on the southern drill grounds off Cape Henry, Va., and that it has been impossible to resume target practice.

One large target raft, he said, had been broken up and the larger part sunk. Two naval tugs, the Potomac and the Pontiac, have been damaged and sent into Hampton Roads for repairs. The Potomac lost a propeller and the Pontiac began to leak slightly. The battle ships Nebraska and Virginia lost anchors.

The Association for the Prevention of Tuberculosis has been agitating the establishing of fresh air rooms in as many schools as possible this winter. They have been tried in Boston, New York, and many other cities with great success. In such schoolrooms the windows are left wide open all the time, very little heat being allowed to enter. Warm canvas bags are used to protect the children from the cold during the most severe weather.

These are closed around the feet to avoid drafts, and are brought up over the body for warmth. The children are exercised frequently, are given a number of rest periods, and provided with a light lunch in the morning and afternoon.

Supt. Stuart has been consulted on the subject and is very much in favor of the scheme, if certain details can be worked out satisfactorily. A number of the teachers are interested in the question and willing to aid all they can.

WANT FRESH AIR SCHOOLS.

Anti-Tuberculosis Society Confers with Supt. Stuart.

Justice Bernard Sets \$62,219 as the Amount for Munsey's Tenant.

Justice Bernard yesterday signed a decree approving the majority report of the appraisers in the case of Shoomaker Company against Frank A. Munsey, fixing the value of the Shoomaker property, 1231 and 1333 E street northwest, at \$103,652, and fixing the rent to be paid Mr. Munsey for five years, beginning July 1, 1909, at \$62,219, an increase of \$2,219 over previous rental.

The case has been pending in the District Supreme Court for more than a year. It was claimed by the Shoomaker Company, under its lease, which expired July 1, 1909, that it was entitled to a renewal for five years on the same terms and conditions as made the first lease.

CHARGE UNDUE INFLUENCE.

Two Brothers Ask Court to Break Mother's Will.

A petition was filed in the District Supreme Court yesterday by James H. Craighead, of Philadelphia, and J. V. A. Craighead, of New York, against Alice W. Craighead, their sister, asking that the court break the will of Mrs. Harriet V. A. Craighead, mother of the litigants. They claim the defendant used undue influence over their mother, and by this means was bequeathed most of the property.

Mrs. Craighead died in New York on July 23, 1909. Her Washington residence was at Vermont avenue and K street northwest.

The plaintiffs claim their mother was weak in mind, and was easily persuaded by their sister to discriminate against them. James Craighead, of New York, received \$5,000 under the will, but stands ready to return the money to the executor.

Preparations have already been made to move the appellate division offices from the courthouse.

Aside from the press room on the east side of the first floor, only the offices of the justices of the Court of Appeals and the clerk and assistants will occupy the building. The press room will be ready Monday. Court of Appeals will convene October 4.

ADMIRAL DICKINS BURIED.

Eight Bluejackets Act as Pallbearers at Arlington Cemetery.

Funeral services for Rear Admiral Francis W. Dickins, who was buried yesterday in Arlington National Cemetery, were without military ceremonies. Expecting for the calson, on which the body was borne, and the eight bluejackets, who acted as pallbearers, the rites were those of the Episcopal church.

The services were held at the residence of Mrs. Dickins' father, Mr. F. W. Pratt, 2015 Columbia road northwest, the Rev. Charles J. Wingate, assistant rector of St. Margaret's Church, officiating.

TEACHERS' PAY IN DOUBT.

Comptroller of Treasury to Hand Down Decision in Matter.

Are teachers to receive pay according to number of years' experience in teaching from date of passage of the act of May 18, 1907?

Pending the Comptroller of the Treasury's decision in the matter, 300 of the highest paid teachers in the District public schools are in the dark regarding the amount of salary they are to receive this year.

Teachers of normal, high, and manual schools are affected. Their salaries range from \$1,000 to \$1,500. Until the decision is reached by the Comptroller, the teachers will receive the same salaries paid to them last year.

The auditor of the District has put the question of salaries up to the Comptroller.

"PAULINE WAYNE" COMING.

Prize Milch Cow Due at White House Soon.

"Pauline Wayne," the prize milch cow presented to President Taft last summer by Senator Stephenson, of Wisconsin, will arrive at the White House about the end of this month.

According to plans, Pauline should have reached here early this month, become fresh next month, and supply the Taft family with milk all winter.

Those on duty at the White House seem to be unable to give any definite information on the subject. Pauline's mother is the most famous milk cow in the world.

Pauline, however, is not enough herself when it comes to a record. She has a capacity of nine gallons of milk a day and twenty-six pounds of butter a week.

Senator Stephenson has frequently refused \$1,000 for her.

ATTACKED BY PARALYSIS.

Henry J. Hunt Is Suffering from the Dreaded Infantile Malady.

Infantile paralysis has attacked Henry J. Hunt, 3d, of Drummond, Md. The first symptoms of the disease developed last Tuesday morning, when a physician was called. It was announced last night that Mr. Hunt had taken a turn for the better. His physician thinks he will recover.

As soon as it was known that Mr. Hunt had the dreaded disease, he was isolated from his family. Mr. Hunt is well known in Washington, being one of the best football players known to the game. He is a nephew of Gen. R. C. Langrum Drum, of Drummond.
